Source Classification - Check the box that applies: Facility is a major source of hazardous air pollutants (HAPs).* Facility is an area source of HAPs.* Facility is an area source of HAPs.* Facility is an area source of a facility that has a potential to emit greater than 10 tons per year of any si HAP or 25 tons per year of all HAPs combined. All other sources are area sources. The major/area si determination is based on all HAP emission points inside the facility fence line. Is the engine(s) a new/reconstructed emergency or limited use engine and > 500 horsepower located major source of HAP? Yes No If YES, the engine(s) does not have any additional requirements under Subpart ZZZZ, but you meet the requirements of 40 CFR Part 60 New Source Performance Standards Subpart IIII for Compression Ignition Engines or Subpart JJJJ for Spark Ignition Engines. Source Type - Check the box that applies: New Source* Existing source* New Source* *Note: To determine if you are a new or existing source, see the attached information following form. Print or type the name and title of the Responsible Official for the facility: A Responsible Official can be: The president, vice president, secretary, or treasurer of the company that owns the plant; A plant engineer or supervisor of the plant; A powerment official, if the plant is located at a military base. I CERTIFY THAT INFORMATION CONTAINED IN THIS REPORT IS ACCURATE AND TO THE BEST OF MY KNOWLEDGE.						YES	2-Stroke Lean Burn Rich Burn	☐ YES	☐ YES
